DETAILED ACTION

The Preliminary Amendment

Receipt is acknowledged of the preliminary amendment filed on March 24, 2005. The amendment has been placed of record in the file.

Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. § 119(a)-(d), which papers have been placed of record in the file.

The Information Disclosure Statement

The prior art cited in the information disclosure statement filed on October 13, 2005 has been considered.

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR § 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In line 18 of claim 10, "beam" has been changed to --bundle-- to correct an obvious typographical error. See lines 2 and 4 of paragraph [0074] in the specification.

Allowable Subject Matter

Claims 1-11 are allowed over the prior art of record.

Examiner's Statement of Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

As to independent claim 1, the prior art of record, taken alone or in combination, fails to disclose or render obvious a method for the optical emission spectroscopy of a liquid excited by a pulsed laser focused on its surface comprising the step of sweeping a zone to be analyzed by a laminar gas flow

Art Unit: 2877

having sufficient velocity and cross sectional area so that the laminar gas flow creates a containment effect on the-free surface of the liquid, in combination with the rest of the limitations of the claim.

As to independent claim 10, the prior art of record, taken alone or in combination, fails to disclose or render obvious a device for the optical emission spectroscopy of a liquid excited by a pulsed laser beam focused on a surface of the liquid comprising means for generating a laminar gas jet parallel to the surface of the liquid to be analyzed, and in contact with the surface of the liquid, eliminating residues of a plasma suspended in the gas and resulting from a first laser pulse from the pulsed laser; means for making the liquid to be analyzed circulate in the form of a jet; and means for making the gas circulate in the form of a jet before flowing tangentially to the liquid to be analyzed, in combination with the rest of the limitations of the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Fax/Telephone Numbers

Any inquiry concerning this communication or earlier communications from the examiner should be directed to the examiner whose telephone number is (571) 272-2414.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gregory J. Toatley, Jr. can be reached on (571) 272-2800 ext 77. The fax phone number for the organization where this application or proceeding is assigned is (571) 273-8300.
